Increase of indebtedness,	\$329 67

By the above it will be seen that there has been a slight increase of the town debt during the year. It will be noticed however, that the regular town tax was nearly \$2400.00 less than in 1893, which accounts chiefly, for the difference between the showings of the two years; and we see no reason why the affairs of the town have not been well managed by the board of Selectmen. We are pleased to note that the Treasurer has arranged with the Bank at Wells River for a year's extension on the Bridge bonds, which were due January 1, at the original rate of interest—four per cent.

Respectfully submitted,

SCHOOL REPORT.

In presenting this, our annual report of the schools, we take pleasure in saying that they have, during the past year, been both successful and profitable. They have been under the instruction of teachers who realized the responsibility resting upon them, as those who are aiding to form the character of youth. There has been a desire on the part of the scholars generally to advance the standard of their schools. It is not necessary for us to mention each school or teacher in detail. No other public servants of the town are annually complimented or discredited by published personal remarks. It is not a universal custom, and the only fruits arising from such remarks are that they furnish food for the vanity of those commended, or serve to tickle the minds of the unfriendly in case a teacher has been unsuccessful. We have endeavored to secure the services of the best teachers, in no case have we employed without their having been well recommended. It is very gratifying to note an important advancement made by the parents the fact that they demand strict discipline. No complaints have been made that the teacher was too severe.

The success of the schools for the next year depends, not alone upon the action of the school board, but the united action and efforts of school board and teachers with scholars and parents, and especially would we urge upon the latter the necessity of supplementing the efforts of the teacher in maintaining discipline by a good, wholesome home influence.

ELKANAH HILDRETH, Chairman.
